PowerFilm Proposition 65 Statement

Dear Valued Customer,

Proposition 65, officially known as the Safe Drinking Water and Toxic Enforcement Act of 1986, was enacted as a ballot initiative in November 1986. The proposition protects the state's drinking water sources from being contaminated with chemicals known to cause cancer, birth defects or other reproductive harm, and requires businesses to inform Californians about exposures to such chemicals.

PowerFilm solar panels do not contain any substances above NSRL or MADL limit based on the list published January 3, 2025 (www.P65Warnings.ca.gov).

If changes occur in our product and one of these listed substances would be present at a quantity greater than the threshold stated the customer would be notified.

Sincerely,

Dan Stieler
President
