

Electronic Component Solar Panels

RC Aircraft Series

The RC Aircraft Series panel is designed to be easily integrated with a variety of RC Aircraft. This panel is very lightweight, can be soldered from the back of the panel via the extended copper tape, and has an extra edge seal for protection from fuel contamination and weather.

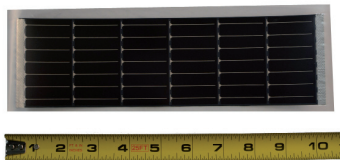

This panel is also available with Pressure Sensitive Adhesive (PSA) making installation a snap.

These panels do not have a UV-stabilized surface, but are suitable for intermittent outdoor use. For connection, melt through laminate and solder to copper tape.

Looking for a custom Electronic Component Solar Panel? We offer custom sizes, voltages, encapsulations and substrates. Contact us at www.powerfilmsolar.com to learn more.

RC7.2-75F

Power: 0.86W
Operating Voltage: 7.2V
Operating Current: 120mA
Max Voc: 11.1V
Size: 10.63 in x 3.54 in /
270 mm x 89.9 mm
Weight 0.20 oz

RC7.2-75PSAF

Power: 0.86W
Operating Voltage: 7.2V
Current: 120mA
Max Voc: 11.1V
Size: 10.63 in x 3.54 in /
270 mm x 89.9 mm
Weight: 0.30 oz
